Chapter:-1

Introduction & Conclusion.

Introduction:-

The project was aimed at designing and developing a banking website that caters to the needs of users for managing their banking transactions online. In Semester 5, the team successfully completed the user-end of the website.

This report presents an overview of the work completed in Semester 5 and the progress made in the current semester towards completing the Admin Panel.

Overview of Semester 5:-

In Semester 5, the team worked on designing and developing the user-end of the banking website. The team started by identifying the requirements of the website and creating a blueprint of the website's architecture. The team then worked on developing the website's front-end, which included designing the website's layout, interface, and user experience. The team also developed the website's back-end, which involved implementing functionality for user registration, login, account management, transaction history, and fund transfers.

Throughout Semester 5, the team faced several challenges, such as technical issues, design constraints, and time constraints. However, the team was able to overcome

these challenges through effective communication and collaboration. By the end of Semester 5, the team had successfully completed the user-end of the banking website and tested it for functionality and usability.

Progress on Admin Panel :-

In the current semester, the team is working on completing the Admin Panel of the banking website. The Admin Panel will provide the bank's administrators with access to various features and functionalities such as account management, transaction monitoring, customer support, and data analysis.

The team started by creating a blueprint of the Admin Panel's architecture and design. The team is now working on developing the Admin Panel's front-end and back-end, which includes implementing features such as user management, transaction tracking, customer support, and data analytics.

The team has faced several challenges in developing the Admin Panel, such as integrating the Admin Panel with the existing user-end, ensuring data security, and maintaining user privacy. However, the team has been able to overcome these challenges by using industry-standard technologies and practices, as well as effective communication and collaboration.

Analysis and Reflection:-

Overall, the project has been a challenging yet rewarding experience for the team. The team has gained valuable knowledge and skills in web development, project

management, and teamwork. The completion of the user-end in Semester 5 has provided a strong foundation for the team to build upon in completing the Admin Panel in the current semester.

Looking back at Semester 5, the team faced several challenges, such as technical issues, design constraints, and time constraints. However, the team was able to overcome these challenges through effective communication and collaboration, as well as using industry-standard technologies and practices.

Moving forward, the team is committed to completing the Admin Panel and delivering a high-quality banking website that meets the needs and expectations of its users.

Conclusion:-

In conclusion, the project has been progressing well, and the team is confident in completing the Admin Panel as per the project timeline. The team has successfully completed the user-end in Semester 5 and is now working on completing the Admin Panel in the current semester. The project has been a valuable learning experience for the team and has provided valuable skills and knowledge in web development, project management, and teamwork.

Chapter:-2

Database.

Introduction :-

In this chapter, we will discuss the database and web design aspects of our banking website project. We have included images below to provide visual context for our readers.

Database Design :-

Our database design includes tables for storing user information, account details, and transaction history. We used MySQL as our database management system. The image below shows the Structure of our database:

Admin Table :-

Admin_ID	Admin_Name	Admin_Password	Designation	How_Much_Approved	Branch
1	Rayyan	7410	Manager	0	Veraval

Comment Table :-

Cid	Email	Subject	Msg	Response	Response_By	Status	Time	Date	Account
784115	illum2701@gmail.com	Question	Hey i Have a Question?	NULL	NULL	Pending	15:21:55	2023-05-12	NULL

Deleted Accounts Table :-

Account_number	Date	msg	Reason	Reason_Code
23715	2023-05-12 15:27:06	Your Account is Removed , Contact Bank to get more...	Not Deposited Amount	1
25602	2023-05-12 15:27:06	Your Account is Removed , Contact Bank to get more...	Not Deposited Amount	1

Loan Table:-

	#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
<input type="checkbox"/>	1	Application_ID	bigint(99)			No	None		AUTO_INCREMENT	Change Drop More
<input type="checkbox"/>	2	Account_number	bigint(99)		UNSIGNED	No	None			Change Drop More
<input type="checkbox"/>	3	Debt	int(99)			No	None			Change Drop More
<input type="checkbox"/>	4	Name	varchar(100)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	5	Email	varchar(50)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	6	Contact	bigint(12)			No	None			Change Drop More
<input type="checkbox"/>	7	Loan_recovered	int(99)			No	0			Change Drop More
<input type="checkbox"/>	8	Decision	varchar(30)	utf8mb4_general_ci		No	Pending			Change Drop More
<input type="checkbox"/>	9	Decision_By	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	10	Date_Loan_Req	datetime			No	current_timestamp()			Change Drop More
<input type="checkbox"/>	11	Package_ID	int(99)			No	None			Change Drop More
<input type="checkbox"/>	12	Package_Name	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	13	Package_Amount	int(99)			No	None			Change Drop More
<input type="checkbox"/>	14	Documents	varchar(10)	utf8mb4_general_ci		No	Not			Change Drop More
<input type="checkbox"/>	15	Doc_Folder	varchar(50)	utf8mb4_general_ci		No	Not Exist			Change Drop More
<input type="checkbox"/>	16	AdharCard	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	17	ChequeBook	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	18	Passbook	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	19	Photo	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More

Loan Packages Table:-

		Package_ID	Package_Name	Sponsor	Package_Amount	Terms	Date_Added	Status	Users_Using	Max_Users
<input type="checkbox"/>	Edit Copy Delete	123456789	One Piece	Monkey D. Luffy	100000000	i have 50% intrest Rate Because i am a Pirate	2023-05-04	Active	0	5
<input type="checkbox"/>	Edit Copy Delete	987654321	Naruto	Itachi	10253046	i have 0% intrest rate because it is haram	2023-05-04	Active	0	5

Main (User) Table :-

	#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
<input type="checkbox"/>	1	Account_number	bigint(99)		UNSIGNED	No	None		AUTO_INCREMENT	Change Drop More
<input type="checkbox"/>	2	Username	varchar(100)	utf8mb4_general_ci		Yes	NULL			Change Drop More
<input type="checkbox"/>	3	Sirname	varchar(100)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	4	Firstname	varchar(100)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	5	Fathername	varchar(100)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	6	Password	varchar(15)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	7	Amount	double			No	None			Change Drop More
<input type="checkbox"/>	8	Img_Path	varchar(225)	utf8mb4_general_ci		No	default.png			Change Drop More
<input type="checkbox"/>	9	Address	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	10	City	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	11	Pin_Code	int(6)			No	None			Change Drop More
<input type="checkbox"/>	12	State	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	13	Country	varchar(225)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	14	Date_Of_Birth	date			No	None			Change Drop More
<input type="checkbox"/>	15	Gender	varchar(50)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	16	Loan_taken	varchar(10)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	17	Loan_requested	varchar(10)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	18	Email	varchar(100)	utf8mb4_general_ci		No	None			Change Drop More
<input type="checkbox"/>	19	Contact	bigint(12)			No	None			Change Drop More
<input type="checkbox"/>	20	Date_Created	datetime			No	current_timestamp()			Change Drop More
<input type="checkbox"/>	21	Created	tinyint(1)			No	0			Change Drop More
<input type="checkbox"/>	22	Blocked	tinyint(1)			No	0			Change Drop More
<input type="checkbox"/>	23	Recovery	tinyint(1)			No	0			Change Drop More

Notifications Table :-

			id	Notification_For	Notification_Type	Notification	Time
<input type="checkbox"/>	Edit Copy Delete		2320	1234	Notification	500 has Been Transferred to Your Account By Rayyan@...	2023-05-02 16:04:21

Event:-

One of the advanced features we incorporated into our database design is the use of events. An event is a scheduled task that automatically performs a specific action in the database at a predefined time. We used events to automate certain tasks such as

if a User Creates an Account and Does'nt Deposit Minimum Amount into his Account his Account Will be Soft Deleted.

If Rewards is Expired Remove it From Database.

Admin Web Designs.

Web Design :-

We designed our banking website also has an Admin Panel which also has a clean and user-friendly interface. The Admin Panel includes features such as User Management , Loan Approval or Rejection , Loan Package Managers , etc The images below provide a glimpse of our web design:

Admin Panel Designs:-

Welcome Page :-

Login Page :-

The screenshot shows the WeBank Admin login interface. At the top left, there is a 'WeBank Admin' label. The main heading is 'Hello So Welcome to Login to Pro'. A central modal box titled 'Login' contains two input fields: 'AdminID' with the value '1' and 'Password' with masked characters '****'. Below these fields are two buttons: 'Cancle' and 'Login'. The background is dark blue with a subtle grid pattern.

Home Page :-

The screenshot shows the WeBank Admin home page. At the top, there is a navigation bar with links: '(Home)', '(Manage User)', '(Manage Loan Applications)', '(Manage Loan Packages)', and '(Reactivate User Account)'. Below the navigation bar, there is a 'Logout' button. The main content area features a large greeting: 'Hello Rayyan , Working Hard it Seems' and a sub-greeting: 'Hey Rayyan , Lets Work Hard...'. The background is dark blue with a subtle grid pattern.

Conclusion

Sr no.	Title	Pg.no
1	Conclusion	25

Chapter:-5

Conclusion.

Conclusion:-

In conclusion, the project "WeBank" aimed to provide users with convenient access to their bank accounts through a user-friendly website. Throughout the development process, we incorporated key features commonly found in traditional banks, ensuring that our users could perform various banking activities seamlessly.

One of the significant achievements of this project was gaining valuable knowledge and experience in web technologies, specifically in OOP PHP and database management. This allowed us to build a robust and secure platform that met the standards and requirements of modern banking systems.

By implementing OOP PHP, we were able to develop a modular and scalable codebase, making future enhancements and updates more manageable. This approach also facilitated code reuse and improved overall maintainability, ensuring that WeBank could adapt to evolving customer needs and technological advancements.

Additionally, the efficient management of the database was a crucial aspect of the project. We focused on designing an optimized database structure that supported seamless data retrieval, storage, and transaction management. This enabled

users to perform banking operations smoothly, with minimal delays or errors.

Throughout the project, we emphasized user experience and security. We prioritized intuitive navigation and a visually appealing interface, ensuring that users could easily navigate through various banking services. Simultaneously, robust security measures, such as encryption and authentication protocols, were implemented to safeguard sensitive user information and transactions.

Overall, the WeBank project provided us with a comprehensive understanding of web technologies, OOP PHP, and database management in the context of banking applications. By successfully developing a functional and user-friendly banking website, we have demonstrated our ability to apply theoretical knowledge to real-world scenarios.

Moving forward, we believe that the skills acquired during this project will be invaluable in pursuing a career in web development and software engineering. WeBank has not only provided users with a convenient banking platform but has also served as a testament to our dedication and proficiency in the field.

We are proud of the outcomes achieved through this project and look forward to future opportunities to apply our knowledge and skills to develop innovative solutions in the banking industry.
